Commentary on Results

Operating loss attributable to the owners of the consolidated entity after tax for the year was \$1,034,477 (2015: \$1,767,525).

The net assets of the consolidated entity have decreased by \$657,865 to \$28,846,820 at 30 June 2016.

Developments during the year included:

Advent Energy Ltd

- On 28 January 2016 Advent Energy announced that the National Offshore Petroleum Titles Administrator (NOPTA) had approved a suspension of the PEP11 Year 2 work program of a 200 km 2D seismic survey and geotechnical studies until 12th August 2016. Further application has been made to NOPTA to allow the planned seismic program to occur in 2017. As at the time of writing this report, that application is still pending.
- Following application by Onshore Energy Pty Ltd the WA Department of Mines & Petroleum granted a suspension of the condition requiring the completion of the existing work commitments for a period of twelve (12) months to 31 March 2017.
- Advent Energy signed a Letter Of Intent ("LOI") with Northern Minerals (ASX: NTU) for the potential future supply of gas to their Browns Range heavy rare earth element project in north-eastern Western Australia. The non-binding LOI provides an initial framework for discussion, information sharing and negotiation towards a possible gas supply agreement.
- During the period Asset Energy executed a contract for the seismic activities within PEP11 in the offshore Sydney Basin. The contracted vessel will perform a high resolution 2D seismic survey covering approximately 200 line km to assist in the drilling of the Baleen target approximately 30 km south east of Newcastle, New South Wales.

Directors' Report

MEC Resources Ltd and its controlled subsidiaries

The directors of MEC Resources Ltd ("MEC" or the "Company") present their report on the Company for the financial year ended 30 June 2016.

Directors

The names of directors in office at any time during or since the end of the year are:

H Goh
D L Breeze
K O Yap
D Ambrosini

Company Secretary

Ms Deborah Ambrosini continues in her role of Company Secretary. She also holds the position of Chief Financial Officer of the company and has over 15 years' experience in corporate accounting roles.

Principal Activities

MEC is registered as a Pooled Development Fund under the Pooled Development Fund Act (1992). It has been formed to invest into exploration companies that are targeting potentially large energy and mineral resources.

MEC will provide carefully selected companies in the energy and mineral exploration sectors with development and exploration funding. MEC intends to identify investment opportunities with a number of specific characteristics including: large targets; a stage of development that permits a strategic investor or IPO within several years; strong and experienced management team and a definitive competitive advantage.

MEC's current major investment lies in unlisted Australian oil and gas exploration company, Advent Energy Ltd.

Advent Energy Ltd - Oil and Gas

MEC has a controlling interest in the unlisted energy explorer Advent Energy Ltd ("Advent") of 44.89%.

Advent has assembled a range of hydrocarbon permits which contain near term production opportunities with pre-existing infrastructure and exploration upside.

Advent's assets include EP386 and RL1 (100%) in the onshore Bonaparte Basin in the north of Western Australia and Northern Territory and PEP11 (85%) in the offshore Sydney Basin.

Advent is investigating a considerable potential shale gas resource within EP386 and RL1. Studies indicate significant potential upside in prospective shale gas resources with an estimated (Best Estimate) prospective recoverable resource of 9.8 Tcf (Low Estimate is 1.9 Tcf and High Estimate is 25.4 Tcf)

A conventional 2C Contingent Resource of 11.5 Bcf (1C is 0.3 Bcf and 3C is 45.8 Bcf) for the Weaber Gas Field (RL1) has been assessed by an independent third party as a component of Advent's drive to commercialise its 100% owned onshore Bonaparte Basin assets. Included in these assets in EP386 conventional recoverable resource estimates range from 53.3 Bcf (Low) to 1,326.3 Bcf (High) of Prospective Resources, with a Best Estimate of 355.9 Bcf of gas. The rapid development of the Kununurra region in northern Western Australia, including the Ord Irrigation Expansion Project and

Directors' Report

MEC Resources Ltd and its controlled subsidiaries

numerous resource projects, provides an exceptional opportunity for Advent to potentially develop its nearby gas resources for the benefit of the region along with Advent and its shareholders.

The Sydney Basin is a proven petroleum basin with excellent potential for the discovery of gas and oil. Advent has demonstrated an active hydrocarbon system with seeps reported in the offshore area and sampling has indicated the presence of thermogenic hydrocarbon gas. This is considered to occur in basins actively generating hydrocarbons and/or that contain excellent migration pathways. Previous drilling has shown that the early Permian geological sequence is mature for hydrocarbons.

Undiscovered gross prospective recoverable gas resources for structural targets within the PEP11 offshore permit have been estimated at 5.7 Tcf (at the Best Estimate level). A Low Estimate of 0.3 Tcf and High Estimate of 67.8 Tcf has been assessed by Pangean Resources in 2010. PEP 11 lies adjacent to the most populous region of Australia and the major industrial hub and port of Newcastle.

Operating Results

The loss attributable to the owners of the Consolidated Group after tax for the year was \$1,034,477 (2015: Loss \$1,767,525).

Dividends

The Directors recommend that no dividend be paid in respect of the current period and no dividends have been paid or declared since the commencement of the period.

Financial Position

The net assets of the Consolidated Group have decreased by \$657,865 to \$28,846,820 at 30 June 2016.

Significant Changes In State Of Affairs

Advent Energy Ltd

- On 28 January 2016 Advent announced that the National Offshore Petroleum Titles Administrator (NOPTA) had approved a suspension of the PEP11 Year 2 work program of a 200 km 2D seismic survey and geotechnical studies until 12th August 2016. Further application has been made to NOPTA to allow the planned seismic program to occur in 2017. As at the time of writing this report, that application is still pending.
- Following application by Onshore Energy Pty Ltd the WA Department of Mines & Petroleum granted a suspension of the condition requiring the completion of the existing work commitments for a period of twelve (12) months to 31 March 2017.
- Advent signed a Letter Of Intent ("LOI") with Northern Minerals (ASX: NTU) for the potential future supply of gas to their Browns Range heavy rare earth element project in north-eastern Western Australia. The contracted vessel will perform a high resolution 2D seismic survey covering approximately 200 line km to assist in the drilling of the Baleen target approximately 30 km south east of Newcastle, New South Wales.

Directors' Report

MEC Resources Ltd and its controlled subsidiaries

- During the year MEC announced a Share Purchase Plan ("SPP"). Under the SPP eligible shareholders were entitled to purchase up to a maximum of \$15,000 worth of shares at a price of \$0.037 per share. The offer was capped to a maximum of 30% of the Company's share capital. The plan closed on 2 May 2016 with a total of \$606,495 being raised.

After Balance Date Events

There have not been any matters or circumstances that have arisen since the end of the financial year, that have significantly affected, or may significantly affect, the operations of the company, the results of those operations, or the state of affairs of the company in future financial years.

Future Developments

The Company will continue to develop its investee portfolio projects including PEP 11 and EP 386 and will evaluate and invest in a range of resource projects.

Remuneration Report (Audited)

This report details the nature and amount of remuneration for key management personnel of MEC Resources Ltd. The remuneration report details the remuneration arrangements for KMP who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, including any Director (whether executive or otherwise) of the Group.

This information provided in this remuneration report has been audited as a required by Section 308(3C) of the Corporations Act 2001.

The Directors and other key management personnel of the Group during or since the end of the financial year were:

H Goh – Non-Executive Chairman
D L Breeze - Executive Director
K O Yap - Non-Executive Director
D Ambrosini – Executive Director and Company Secretary
E H Tan – Non Executive Director of Advent

All the parties have held their current position for the whole of the financial year and since the end of the financial year unless otherwise stated.

Remuneration Policy

The remuneration policy of MEC Resources Ltd has been designed to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives as determined by the Board and/or shareholders. The remuneration report, as contained in the 2015 financial accounts was adopted at the Company's 2015 annual general meeting. Remuneration for both Executive and Non-Executive directors has not increased since company inception. Although remuneration is reviewed annually against local market levels, the Board believes this course of action to be appropriate.

The Board's policy for determining the nature and amount of remuneration for Board members and senior executives of the Company is as follows:

The remuneration policy, setting the terms and conditions for the executive directors and other senior executives, was approved by the Board.

- All executives receive a base salary (which is based on factors such as length of service and experience), superannuation, fringe benefits and options.
- The Board reviews executive packages annually by reference to the Company's performance, executive performance and comparable information from industry sectors and other listed companies in similar industries.

Directors' Report

MEC Resources Ltd and its controlled subsidiaries

Remuneration philosophy

The performance of the Company depends upon the quality of the Directors and executives. The philosophy of the Company in determining remuneration levels is to:

- set competitive remuneration packages to attract and retain high calibre employees;
- link executive rewards to shareholder value creation; and
- establish appropriate, demanding performance hurdles for variable executive remuneration

The performance of executives is measured against criteria agreed biannually with each executive and is based predominantly on the forecast growth of the Company's profits and shareholders' value. The Board may, however, exercise its discretion in relation to approving incentives, bonuses and options. Any changes must be justified by reference to measurable performance criteria. The policy is designed to attract the highest calibre of executives and reward them for performance that results in long-term growth in shareholder wealth.

Executives are also entitled to participate in the employee share and option arrangements.

The executives receive a superannuation guarantee contribution required by the government, which is currently 9.50%, and do not receive any other retirement benefits. Some individuals, however, have chosen to sacrifice part of their salary to increase payments towards superannuation.

Shares given to directors and executives are valued as the difference between the market price of those shares and the amount paid by the director or executive. Options are valued using an appropriate methodology.

The Board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. Payments to non-executive directors are based on market practice, duties and accountability. Independent external advice is sought when required on payments to non-executive directors. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting. Fees for non-executive directors are not linked to the performance of the Company. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company and are able to participate in the employee option plan.

A policy on Directors hedging their equity has not been implemented by the Consolidated Group.

Compensation Practices

The Board's policy for determining the nature and amount of compensation of key management for the Group is as follows:

The compensation structure for key management personnel is based on a number of factors, including length of service, particular experience of the individual concerned, and overall performance of the Company. The contracts for service between the Company and key management personnel are on a continuing basis, the terms of which are not expected to change in the immediate future. Upon retirement, key management personnel are paid employee benefit entitlements accrued to date of retirement. Key management personnel are paid one months of salary in the event of redundancy and options not exercised before or on the date of termination will lapse after one month.

The Board determines the proportion of fixed and variable compensation for each key management personnel.

Directors' Report

MEC Resources Ltd and its controlled subsidiaries

Employment contracts of directors

The employment conditions of the managing director are formalised in a contract of employment. The employment contract stipulates a six month resignation period. The Company may terminate an employment contract without cause by providing six months written notice or making payment in lieu of notice, based on the individual's annual salary component together with a redundancy payment of six months of the individual's fixed salary component. Termination payments are generally not payable on resignation or dismissal for serious misconduct. In the instance of serious misconduct, the company can terminate employment at any time. Any options not exercised before or on the date of termination will lapse after one month.

The remaining directors are consultants to MEC Resources Ltd and each party can terminate their services by written notice.

Company performance, shareholder wealth, and director and executive remuneration

The following table shows the gross revenue and the operating result for the last five years for the listed entity, as well as the share price at the end of the respective financial years. Analysis of the actual figures shows a decrease in the operating loss in the current year from the normalised loss in the prior year. The loss for last year was negatively influenced by the loss incurred on the sale of redundant capitalised items. A book loss of \$1.2M was recorded on the sale of these items however the normalised loss was \$1.6M. The Board is of the opinion that the decreased loss is in line with expectations as efforts continue to cut the costs of the Company while navigating very difficult market conditions.

Non-audit Services

The Board of Directors is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons:

- all non-audit services are reviewed and approved by the Board prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- the nature of the services provided do not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

No fees for non-audit services were paid/payable to the external auditors during the year ended 30 June 2016 (2015: Nil).

Auditor's Independence Declaration

The lead auditor's independence declaration for the year ended 30 June 2016 has been received and can be found on page 12.

The directors' report is signed in accordance with a resolution of directors made pursuant to S298(2) of the Corporations Act 2001.

Notes to the Financial Statements for the year ended 30 June 2016

MEC Resources Ltd and its controlled subsidiaries

1. Statement of Significant Accounting Policies

Corporate Information

The financial report includes the consolidated financial statements and the notes of MEC Resources Ltd and its controlled entities ('Consolidated Group' or 'Group').

MEC Resources Ltd is a public listed company on the ASX, which is incorporated and domiciled in Australia.

The financial report was authorised for issue on 26 August 2016 by the Board of Directors.

Basis of Preparation

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board ("AASB") and the Corporations Act 2001. MEC Resources Ltd is a for-profit entity for the purpose of preparing the financial statements.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Material accounting policies adopted in the preparation of this financial report are presented below. They have been consistently applied unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on historical costs, modified, where stated below.

Compliance with IFRS

The consolidated financial statements of MEC Resources Ltd comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

Financial Position

The Consolidated Group has incurred losses for the year ended 30 June 2016 of \$1,300,678 (2015: \$2,903,730) and has a net cash outflow from operating activities of \$867,633 (2015: \$1,138,136).

The Consolidated Group has a working capital deficit of \$609,428 (Note 18b) as at 30 June 2016 (2015: surplus of \$92,086) which includes cash assets of \$877,018 as at 30 June 2016 (2015: \$1,265,571), trade receivables of \$118,322 (2015: \$174,573), trade creditors and other payables of \$793,795 and (2015: \$545,074) and financial liabilities of \$810,973 (2015: 697,978)

Included in trade creditors and payables are director fee accruals of \$669,477 (2015: \$449,515). The directors have reviewed their expenditure and commitments for the Consolidated Group and have implemented methods of costs reduction. The directors as a part of their cash monitoring, have voluntarily suspended cash payments for their directors' fees to conserve cash resources until such time that the Consolidated Group has sufficient cash.

The Group has total financial liabilities of \$810,973 at 30 June 2016. Subsequent to year end the Group has received confirmation from the lender that the current financial liabilities of \$810,973 (2015: \$697,978) will not be called for a period of 12 months from the date of this financial report or until such time as the Group is financially independent.

Notes to the Financial Statements for the year ended 30 June 2016

MEC Resources Ltd and its controlled subsidiaries

1. Statement of Significant Accounting Policies (continued)

The directors have prepared cash flow forecasts that indicate that the Consolidated Group will have sufficient cash flows to meet its non-exploration commitments for a period of at least 12 months from the date of this report.

Based on the cash flow forecasts, directors voluntarily suspending their payments, deferral of \$697,978 in financial liabilities and the reduction of operational costs, the directors are satisfied that, the going concern basis of preparation is appropriate. The financial report has therefore been prepared on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For further disclosure concerning the exploration permits and expenditure commitments of the Group and the ability of the Group to realise the associated capitalised exploration expenditure please refer to Note 12.

Accounting Policies

(a) Principles of Consolidation

A controlled entity is any entity which MEC Resources Ltd is exposed or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. A list of controlled entities is contained in Note 25 to the financial statements. All controlled entities have a June financial year-end. As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the consolidated financial statements as well as their results for the year then ended.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate.

All inter-company balances and transactions between entities in the Consolidated Group, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the parent entity.

Where controlled entities have entered or left the Consolidated Group during the year, their operating results have been included/excluded from the date control was obtained or until the date control ceased.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of financial position respectively.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the company.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests.

Notes to the Financial Statements for the year ended 30 June 2016

MEC Resources Ltd and its controlled subsidiaries

1. Statement of Significant Accounting Policies (continued)

(a) Principles of Consolidation (continued)

Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under AASB 139 Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

(b) Business Combinations

Business combinations occur where control over another business is obtained and results in the consolidation of its assets and liabilities. All business combinations, including those involving entities under common control, are accounted for by applying the purchase method.

The purchase method requires an acquirer of the business to be identified and for the cost of the acquisition and fair values of identifiable assets, liabilities and contingent liabilities to be determined as at acquisition date, being the date that control is obtained. Cost is determined as the aggregate of fair values of assets given, equity issued and liabilities assumed in exchange for. Any deferred consideration payable is discounted to present value using the entity's incremental borrowing rate. Acquisition-related costs are recognised in profit or loss as incurred.

Goodwill is recognised initially at the excess of cost over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised. If the fair value of the acquirer's interest is greater than cost, the surplus is immediately recognised in profit or loss.

(c) Income Tax

The charge for current income tax expense is based on the profit for the year adjusted for any non-assessable or disallowed items. It is calculated using the tax rates that have been enacted or are substantially enacted by the balance sheet date. Deferred tax is accounted for in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is recognised in the statement of profit or loss and other comprehensive income except where it relates to items that may be recognised directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences or unused tax losses and tax credits can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the Group will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

1. Statement of Significant Accounting Policies (continued)

(d) Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment are measured on the cost less accumulated depreciation and any impairment losses.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of profit or loss and other comprehensive income during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including building and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line basis over their useful lives to the consolidated Group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

Class of Fixed Asset

Depreciation Rate

Plant and equipment

15.00 - 33.33%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss and other comprehensive income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

(e) Exploration and Development Expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward where right of tenure of the area of interest is current and to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest. Accumulated costs in relation to an abandoned area are

(d) Exploration and Development Expenditure (continued)

written off in full against profit in the year in which the decision to abandon the area is made.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified from Intangible assets to mining property and development assets within property, plant and equipment. Should exploration be successful and result in a project, costs of site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with clauses of the mining permits. Such costs have been determined using estimates of future costs, current legal requirements and technology.

Any changes in the estimates for the costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

(f) Financial Instruments

Recognition and Initial Measurement

Financial instruments, incorporating financial assets and financial liabilities, are recognised when the Company becomes a party to the contractual provisions of the instrument. Trade date accounting is adopted for financial assets that are delivered within timeframes established by marketplace convention.

Financial instruments are initially measured at fair value plus transactions costs where the instrument is not classified as at fair value through profit or loss. Transaction costs related to instruments classified as at fair value through profit or loss are expensed to profit and loss immediately. Financial instruments are classified and measured as set out below.

Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the Company is no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expire. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit and loss.

Classification and Subsequent Measurement

(i) Financial assets at fair value through profit or loss

Financial assets are classified at fair value through profit and loss when they are held for trading for the purpose of short term profit taking, where they are derivatives not held for hedging purposes, or designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Realised and unrealised gains and losses arising from changes in fair value are included in the profit and loss in the period in which they arise.

Notes to the Financial Statements for the year ended 30 June 2016

MEC Resources Ltd and its controlled subsidiaries

1. Statement of Significant Accounting Policies (continued)

(f) Financial Instruments (continued)

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are initially recognised at fair value plus any directly attributable transaction costs and are subsequently measured at amortised cost using the effective interest rate method.

(iii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated as such or that are not classified in any of the other categories.

The Group also has investments in unlisted shares that are not traded in an active market but that are also classified as available for sale financial assets and stated at fair value (because the directors consider that fair value can be reliably measured). Gains and losses arising from changes in fair value are recognised in other comprehensive income and accumulated in the investments revaluation reserve, with the exception of impairment losses, interest calculated using the effective interest method, and foreign exchange gains and losses on monetary assets, which are recognised in profit or loss.

(iv) Financial Liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost using the effective interest rate method.

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Impairment

At each reporting date, the Group assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a significant or prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the statement of profit or loss and other comprehensive income.

Assets carried at amortised cost

For loans and receivables, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in profit or loss. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in profit or loss.

Notes to the Financial Statements for the year ended 30 June 2016

MEC Resources Ltd and its controlled subsidiaries

1. Statement of Significant Accounting Policies (continued)

(f) Financial Instruments (continued)

Assets classified as available-for-sale

If there is objective evidence of impairment for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in profit or loss.

Impairment losses on equity instruments that were recognised in profit or loss are not reversed through profit or loss in a subsequent period.

If the fair value of a debt instrument classified as available-for-sale increases in a subsequent period and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through profit or loss.

(g) Derivatives

Derivatives are initially recognised at fair value at the date the derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the statement of profit or loss and other comprehensive income immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in the statement of profit or loss and other comprehensive income depends on the nature of the hedge relationship.

A derivative with a positive fair value is recognised as a financial asset; a derivative with a negative fair value is recognised as a financial liability. A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

(h) Impairment of Assets

The Group reviews non-financial assets, other than deferred tax assets, at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU"). An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

1. Statement of Significant Accounting Policies (continued)

(h) Impairment of Assets (continued)

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(i) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

(j) Revenue

Revenue from the sale of goods is recognised upon the delivery of goods to customers.

Interest revenue is recognised when it is probable that the economic benefits will flow to the Group and the amount of revenue can be measured reliably. Interest revenue is accrued on a timely basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividend revenue is recognised when the right to receive a dividend has been established. Dividends received from associates and joint venture entities are accounted for in accordance with the equity method of accounting.

Revenue from the rendering of a service is recognised by reference to the stage of completion of the contract. All revenue is stated net of the amount of goods and services tax (GST).

(k) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(l) Trade and other payables

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether or not billed to the Consolidated Group. The amounts are unsecured and are usually paid within 30 days. The carrying amounts of trade and other payables are assumed to be the same as their fair values due to their short-term nature. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

1. Statement of Significant Accounting Policies (continued)

(m) Share based payments

Share based compensation benefits are provided to employees via the Company's Employee Option plan.

The fair value of options granted under the Company's Employee Option Plan is recognized as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognized over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is independently determined using an appropriate option pricing model that takes into account the exercise price, the term of the option, the vesting and performance criteria, the impact of dilution, the share price at grant date and expected volatility of the underlying share, the expected dividend yield and risk free interest rate for the term of the option.

The fair value of the options granted excludes the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to vest. At each balance sheet date, the Company revises its estimate of the number of options that are expected to vest. The employee benefit expense recognised each period takes into account the most recent estimate. Upon the exercise of options, the balance of the share-based payments reserve relating to those options is transferred to share capital.

(n) Earnings per share

Basic earnings per share (EPS) is calculated as net profit/loss attributable to members, adjusted to exclude costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

(o) Foreign Currency

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each group entity are expressed in Australian dollars ('\$'), which is the functional currency of the company and the presentation currency for the consolidated financial statements. In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in profit or loss in the period in which they arise.

(p) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(q) Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to statement of financial position. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits using a corporate bond rate.

(r) Critical Accounting Estimates and Judgements

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key Judgments —Impairment of capitalised and carried forward exploration expenditure
Exploration and evaluation costs are carried forward where right of tenure of the area of interest is current. These costs are carried forward in respect of an area that has not at statement of financial position date reached a stage that permits reasonable assessment of the existence of economically recoverable reserves, refer to the accounting policy stated in note 1(e). Refer to Note 12 for further discussion on the commitments of the exploration permits held by the Group.

(s) Application of New and Revised Accounting Standards

Standards and Interpretations applicable to 30 June 2016

In the year ended 30 June 2016, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the current annual reporting period.

As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Company and, therefore, no material change is necessary to Group accounting policies.

Standards and Interpretations in issue not yet adopted

The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the year ended 30 June 2016. As a result of this review the Directors have determined that there is no material impact, of the new and revised Standards and Interpretations on the Group and, therefore, no change is necessary to Group accounting policies.

Recoverability of the carrying amount of exploration assets is dependent on the successful exploration and sale of natural gas. Capitalised costs amounting to \$nil (2015: \$3,735) have been included in cash flows from investing activities in the statement of cash flows. Receipts for the sale of capitalised items of \$62,585 (2015: nil) have been included in cash flows from investing activities in the statement of cash flows.

The Consolidated Group has current commitments for its exploration permits of \$5,150,000 over the next 12 months. To assist in meeting these commitments, the Group is continually seeking and reviewing potential sources of both equity and debt funding. Advent is currently in negotiations with a number of parties on the terms of investment and management has confidence that a suitable outcome will be achieved however there is no certainty at this stage that those discussions will result in further funding being made available.

In relation to the Group's exploration commitments (which include Asset Energy Pty Ltd completing 200km of 2D seismic and geotechnical studies within the PEP 11 area by 12 August 2016), Advent's wholly owned subsidiary, Asset Energy Pty Ltd, lodged an application in respect of Petroleum Exploration Permit 11 ("PEP11") with the National Offshore Petroleum Titles Administrator ("NOPTA") prior to 30 June 2016 to vary a condition of PEP11, suspend the years 2 and 3 work commitments and request a subsequent extension of the PEP11 permit term. NOPTA is currently assessing the application.

Asset Energy Pty Ltd has invested over \$25 million in the PEP11 title in recent history, and, along with its JV partner Bounty Oil and Gas NL, is committed to continuing to explore for and ultimately exploit any petroleum accumulations which may be identified in this title area.

Notes to the Financial Statements for the year ended 30 June 2016

MEC Resources Ltd and its controlled subsidiaries

In addition to the 2D seismic commitment, Advent is committed to drill an exploration well and perform a seismic survey by the end of March 2017 for EP 386. These 2 commitments comprise the significant balance of \$4,797,500.

The application to vary a condition of the title and suspend the years 2 and 3 work commitments was prepared following discussions with NOPTA, however a decision has not been received by the Company from NOPTA.

The above conditions indicate the uncertainty that may affect the ability of the Group to realise the carrying value of the exploration assets in the ordinary course of business.

The holders of options do not have the right, by virtue of the option, to participate in any share issue or interest issue of any other body corporate or registered scheme.

(b) Capital risk management

The Group's and the parent entity's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they may continue to provide returns for shareholders and benefits for other stakeholders.

The focus of the Group's capital risk management is the current working capital position against the requirements of the Group to meet corporate overheads and exploration commitments. The Group's strategy is to ensure appropriate liquidity is maintained to meet anticipated operating requirements, with a view to initiating appropriate capital raisings as required. 21. Financial Risk Management

(a) Financial Risk Management

The Group's financial instruments consist mainly of deposits with banks, short-term investments, investments held for trading, accounts receivable and payable, and loans to and from related parties. The main purpose of non-derivative financial instruments is to raise finance for group operations policies.

i. Financial Risk Exposures and Management

The main risks the Group is exposed to through its financial instruments are interest rate risk, liquidity risk, credit risk and equity price risk.

Interest rate risk

Interest rate risk is managed with a mixture of fixed and floating rate debt.

Liquidity risk

The Group manages liquidity risk by monitoring forecast cash flows.

Credit risk

Notes to the Financial Statements for the year ended 30 June 2016

MEC Resources Ltd and its controlled subsidiaries

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

Credit risk for derivative financial instruments arises from the potential failure by counter-parties to the contract to meet their obligations.

Equity Price Risk

The Group is exposed to equity price risks arising from equity investments. The performance of equity investments are reviewed biannually to market. The Group holds a diversified portfolio with investments in biotech and oil & gas exploration to manage this risk.

Equity Price Sensitivity Analysis

The sensitivity analyses below have been determined based on the exposure to equity price risks at the end of the reporting period.

If equity prices had been 5% higher/lower:

Net loss for the year ended 30 June 2016 would decrease/increase \$5,028 (2015: increase/decrease by \$5,028) as a result of the changes in fair value of financial assets through the profit and loss; and

The Group's sensitivity to equity prices has not changed significantly from the prior year.

(b) Financial Instruments

i. Interest rate risk

The Group's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates and the effective weighted average interest rates on classes of financial assets and financial liabilities, is as follows:

ii. Fair Values

The fair values of:

- Term receivables are determined by discounting the cash flows, at the market interest rates of similar securities, to their present value.
- Listed investments have been valued at the quoted market bid price at balance date. For unlisted investments where there is no organised financial market, the net fair value has been based on a reasonable estimation based on valuation techniques that are not based on observable market data.
- Other loans and amounts due are determined by discounting the cash flows, at market interest rates of similar borrowings to their present value.
- Other assets and liabilities approximate their carrying value.

No financial assets and financial liabilities are readily traded on organised markets in standardised form other than listed investments.

(b) Financial Instruments (continued)

Aggregate fair values and carrying amounts of financial assets and financial liabilities at balance date:

(b) Financial Instruments (continued)

Interest Rate Sensitivity Analysis

The effect on profit and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

	Consolidated Group	
	2016	2015
Change in profit		
— Increase in interest rate by 1%	13,400	12,655
— Decrease in interest rate by 0.5%	(6,700)	(6,328)

iv. Liquidity risk

The Group manages liquidity risk by maintaining adequate reserves and banking facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Liquidity is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The following are the contractual maturities at the end of the reporting period of financial liabilities.

(c) Fair value measurements recognised in the statement of financial position

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The company received through an in specie distribution an investment in Molecular Discovery Systems Ltd in January 2010. The investment in Molecular Discovery Systems Ltd was an arm's length transaction.

The fair value of the Group's investment in MDSystems as at 30 June 2016 has been arrived at on the basis of a valuation performed at 30 June 2015 by an independent expert valuer to the company and reassessed by management at 30 June 2016. The valuer holds the appropriate qualifications and recent experience in the valuation of investments of this nature. The fair value was determined using the relative valuation methodology. The approach considers the value of broadly comparable listed entities which are at a similar stage of biotechnology product life cycle to MDSystems. The valuation supported the carrying value of MEC's AFS investment in the company.

22. Operating Segment

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Managing Director and his management team (the chief operating decision makers) in assessing performance and in determining the allocation of resources.

Notes to the Financial Statements for the year ended 30 June 2016

MEC Resources Ltd and its controlled subsidiaries

22. Operating Segment (continued)

The operating segments are identified by management based on their investment in exploration companies. Financial information of these investments is reported to the managing director and his management team on at least a monthly basis. Currently, management's focus is on the exploration program of Advent Energy project's PEP 11, EP 325 and EP 386, which is disclosed in Note 12.

The Group operates predominantly in one industry, namely investments in energy and mineral resources. These activities are predominantly in Australia.

Accounting policies and inter-segment transactions

The accounting policies used by the Group in reporting segments are the same as those contained in note 1 to the accounts and in the prior period.

23. Events after the Balance Sheet Date

There have not been any matters or circumstances that have arisen since the end of the financial year, that have significantly affected, or may significantly affect, the operations of the company, the results of those operations, or the state of affairs of the company in future financial years.

24. Related Party Transactions

(c) Related entities

A loan facility exists between Advent and its parent entity MEC, \$3,600,000 (2015: \$3,600,000). The loan is secured by a second charge over all of the assets and rights of Advent Energy including but not limited to, all real and personal property, choses in action, goodwill and called but unpaid nominal and premium capital. The loan is due and payable on the earlier of a successful capital raising or the date that MEC issues a notice for repayment. On the 30 July 2015 MEC Resources signed a variation to their secured loan agreement with Advent Energy Ltd which varied the agreement to incorporate a fixed repayment date of 19 November 2017.

(d) Directors

The company has an agreement with Trandcorp Pty Limited on normal commercial terms procuring the services of David Breeze to provide product development services. \$65,000 (2015: \$65,000) was paid during the year.

29. Commitments (continued)

Asset Energy Pty Ltd has invested over \$25 million in the PEP11 title in recent history, and, along with its JV partner Bounty Oil and Gas NL, is committed to continuing to explore for and ultimately exploit any petroleum accumulations which may be identified in this title area.

Advent, through wholly owned subsidiary Onshore Energy Pty Ltd, has applied to the Western Australian Department of Mines and Petroleum for a variation, suspension and extension of current work commitments including an exploration well and 2D seismic. It is committed to drill an exploration well and perform a seismic survey by the end of March 2017 for EP 386. These 2 commitments comprise the significant balance of \$4,797,500. The variation to the work commitments includes the reservoir stimulation and production testing of Waggon Creek-1 and Vienta-1 in EP386, to be completed by the end of March 2018.

INDEPENDENT AUDITOR'S REPORT

To the members of MEC Resources Limited

Report on the Financial Report

We have audited the accompanying financial report of MEC Resources Limited ("the company"), which comprises the consolidated statement of financial position as at 30 June 2016, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flow for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration, of the Group comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In Note 1, the directors also state, in accordance with Accounting Standard AASB 101: *Presentation of Financial Statements*, the consolidated financial statements comply with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's and its controlled entities' internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's Opinion

In our opinion:

- (a) the financial report of MEC Resources Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Group's financial position as at 30 June 2016 and its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

Emphasis of Matter

We draw attention to Note 12 to the financial statements which describes the uncertainty around the basis of continuing to recognize the carrying value of exploration and evaluation assets. Our opinion is not modified in respect of this matter.

Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2016. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of MEC Resources Limited for the year ended 30 June 2016 complies with section 300A of the *Corporations Act 2001*.

Key to Disclosures Corporate Governance Council Principles and Recommendations

Name of entity:

MEC Resources Limited

ABN / ARBN:

4411390020

Financial year ended:

30 June 2016

Our corporate governance statement² for the above period above can be found at:³

- These pages of our annual report:
- This URL on our website: <http://www.mecresources.com.au/newsroom/corporate-governance.html>

The Corporate Governance Statement is accurate and up to date as at 26 August 2016 and has been approved by the board.

The annexure includes a key to where our corporate governance disclosures can be located.

Date: 26 August 2016

Name of Director or Secretary authorising
lodgement:

Deborah Ambrosini

¹ Under Listing Rule 4.7.3, an entity must lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of rule 4.10.3.

² "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

³ Mark whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where the entity's corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes "OR" at the end of the selection and you delete the other options, you can also, if you wish, delete the "OR" at the end of the selection.
